EDUCATION

Information Technology

Currently studying

Coursework: web development, programming, databases, systems and networking.

TECHNICAL SKILLS

- HTML and CSS
- Responsive web design
- PHP and MySQL
- SQL and database design
- User authentication
- Computer systems servicing
- Network and server setup

STRENGTHS

- Problem solving
- Team collaboration
- Continuous learning

ARON DOLIENTE

INFORMATION TECHNOLOGY STUDENT

ABOUT ME

IT student building practical skills in web development, programming, databases, systems, and networking. Hands-on learner seeking an entry-level technology role to contribute, learn, and grow.

SELECTED PROJECTS

Responsive Website

Built responsive pages with semantic HTML and CSS, clear navigation, and adaptable layouts.

Transportation App Concept

Mapped interface wireframes, user workflows, and core features for a student app concept.

Database & Systems Activity

Designed normalized SQL tables, wrote queries, and implemented server-side logic with PHP and MySQL.
